

interested in purchasing a OneRoof Energy solar home?

This home is producing clean, affordable energy compliments of a OneRoof Energy solar system. The system is owned and maintained by OneRoof Energy and financed by the homeowner with a SolarSelect Financing Agreement.

OneRoof's Pre-Paid SolarSelect Financing Agreement

The OneRoof Energy SolarSelect Financing Program provides an easy and affordable way for homeowners to go solar. Solar lease programs are similar to leasing a car. Instead of paying for the entire cost of the system upfront, you simply make affordable monthly lease payments to OneRoof Energy. The lease payments for this solar home have been paid in advance, so you'll have all the benefits of the solar system for the remaining term of the agreement without ever making a monthly lease payment to OneRoof. You'll still make a monthly electric payment to your local utility company, but your utility bill should be less than what you would pay for electricity without solar.

Here are four simple steps to assume this home's Pre-Paid SolarSelect Financing Agreement and start producing clean, renewable energy for yourself:

- **Step One:** Sign and return the Consent to Disclosure of Information form
- **Step Two:** Review the agreement
- **Step Three:** Sign the Lease Transfer Document
- **Step Four:** Provide proof of property sale

Questions?

OneRoof Energy is dedicated to making the lease transfer process easy and hassle-free. If you or your Realtor have questions about the benefits of solar or the solar system installed on this home, please call our dedicated Customer Care Team at: **(855) 785 - 9554**. For questions about the lease transfer process, please email our Property Transaction Team at: **propertytransactions@oneroofenergy.com**

About OneRoof Energy

With a laser focus on customer care, OneRoof Energy has quickly become one of the nation's premier providers of solar services. As the winner of "Best Residential Solar Contractor in the US" in 2013 by Solar Power magazine, we take the guesswork out of going solar. Our mission is to bring homeowners solar the way they like it – with fully warrantied, state-of-the-industry equipment and premium solar services.
